

YOU ARE WELCOME HERE

Living Hope seeks to always be an open and welcoming faith community. Since all people are created in God's image, we commit to working toward justice and inclusivity inside and outside this congregation. What does that mean? This means that our table is a place where Jesus sits down to share a meal with us. This faith community welcomes, includes, and affirms people of every race, color, culture, age, gender identity and gender expression, sexual orientation, marital status, faith story, economic situation, physical and mental ability, educational level and work history. In this church, you can be who you are and more fully become the person God made you to be! We come here to meet Jesus - who meets us as we are, welcomes and leads us into the fullness of new life through his death and resurrection. Together, we grow in faith and discover what it means to be *the Heart of Christ in the Heart of the City!*
